

## Case History

### I'm a celebrity, get me Rainbow in here

Kerry Katona; the "Face of Iceland", OK Magazine columnist, author, actress and winner of "I'm a celebrity get me out of here" in 2005, called in the specialised technicians at Rainbow International to clean the carpets of the new home she moved into following her wedding.

Due to building alterations that had taken place and damaged caused when Kerry and her family's belongings were moved into their home; there was a large amount of dust and dirt that had unfortunately been trodden into the luxurious carpets throughout the house.

Kerry called upon Rainbow International due to their excellent reputation in this area of cleaning, and Rainbow International did not disappoint her. The Rainbow franchisees in Culcheth & Altrincham were on hand to ensure the timely and precise cleaning of the carpets, so Kerry and her family could settle properly in their new home.

In total the carpets from 3 of the bedrooms, an office, the landing and the staircase all had the treatment of Rainbow's deep carpet cleaning system, which returned them back to their luxurious appearance prior to the damage caused from the building alterations and the moving in of their belongings.

Rainbow's local Operations Manager said "It was a relatively simple job for our technicians to do, but one that needed great care and attention due to the carpets being very high quality. The owners were expecting the carpets to look and feel brand new again after their deep clean treatment; and I'm pleased to say that the carpets came up to their expectations. Our celebrity client was extremely pleased with the quality of service she received."

Kerry confirmed this by stating "The carpets were rather mucky after the move, and the children were running in and out of the garden for several days before we had a chance to put some mats down in the appropriate places. Rainbow has a very good reputation in this area, so they were the natural choice when I needed a really professional clean, and they certainly lived up to expectations."
